###ÿÿ#####ÿ□#ÿÿd#######Z#(########The Defense Acquisition Deskbook (Deskbook) is an automated reference tool that provides the most current acquisition information for all DoD Services and Agencies. The system development and program management is the responsibility of the Joint Program Office at Wright-Patterson AFB, Ohio. The Program direction comes from OSD(AR) and OUSD(A&T)/API. The Deskbook Program Charter was endorsed by the Service Acquisition Executives and approved by USD(A&T). The Departments of Defense, Army, Navy, Air Force, as well as the Defense Logistics Agency provide the funding and manpower to the program office. As you will see, the Deskbook system is an integral part of the acquisition policy process and supports the Secretary of Defense directive for DoD to be paperless by the year 2000.

##Deskbook originated from an Acquisition Reform initiative aimed at reducing directives while assisting acquisition professionals to make informed decisions. It is DoD∏s Acquisition Knowledge Presentation System! Historically, information was disseminated by whatever means was most convenient to the information provider. Policy letters, guides, handbooks, lessons learned libraries, web pages... the list goes on. It was always left up to the person on the receiving end to try to find and integrate all this information. Deskbook reverses that concept. The authors do the integration so that the user can select a topic of interest and be presented with all the applicable information. Not everything published constitutes □Mandatory Direction.□ Regardless of the author□s intent, people in the field were following procedures that they, or their chain, interpreted as mandatory. The primary objectives of Deskbook is to provide clear delineation between what is mandatory and what is discretionary. This philosophy is best illustrated with the new DoDD 5000.1 and DoD 5000.2-R. These documents were reduced from approximately 1200 pages to 150 pages which now represents only the mandatory direction. Much of the rest of the □cutting room floor□ information, although not mandatory, is still of value to the acquisition professional and is included as discretionary information in Deskbook. An essential element of this effort is to apply the Integrated Process Team process to policy development. Instead of several organizations creating overlapping, redundant, or possibly conflicting guidance, representatives of those organizations are getting together and coordinating to create less quantity but more quality information. This cooperation is crucial to reducing duplication in DoD□s regulations and guidance. The Deskbook full product is available by Compact Disc or can be downloaded from the Deskbook web site. Both of these are Windows and Macintosh compatible. A viewer is also accessible from the Deskbook web site but is Windows only compatible. Through these multiple sources, the user can have access to Deskbook from the hard drive or local area network or, through, the Internet to the Deskbook server. These multiple sources provides the user access to the most current information, while providing reliable and flexible Deskbook sources.

###ÿÿ#####ÿ∏#ÿÿd#######Z#(#####É###Deskbook has two distinct components.The Compact Disc (CD), produced quarterly, provides a fully integrated Knowledge Presentation System of DoD acquisition and related information. The CD is designed to be loaded onto a network or on a stand-alone computer. The system contains a structure of topics, processes and special interest items integrated with the mandatory and discretionary information, sample formats, descriptions of software tools supporting that activity, wisdom and advice. The goal of the Deskbook Web Site is to provide a single entry point for all information on the web associated with DoD acquisition. This is accomplished primarily through links to existing sites. The Ask a Professor and Software Tool Catalog will be discussed in detail later but, for now, be aware they are efforts available at the Deskbook web site.Order CD: The Joint Program Office provides several methods of obtaining their software products, depending on your situation and needs. U.S. Government offices and employees can order the CD, at no cost, through the Deskbook web site, mail, fax, e-mail, or phone. Non-U.S. Government entities can purchase an annual subscription through the Government Printing Office (GPO) at (202) 512-1800. Order <code>DESKD</code>.Software Downloads: Download either the viewer or full version of Deskbook.Customer Support: The Deskbook JPO provides full support for both software and content through the web site, email, phones, and fax. The goal of the dedicated Customer Support staff is to provide any assistance you need for Deskbook, 7AM through 5PM, Eastern Time Zone, Monday through Friday. Additionally, the Deskbook JPO is developing a full Internet version and expect to be on-line by late 1998.#

###ÿÿ#####ÿ∏#ÿÿd#######Z#(#####®###This chart reflects the different categories of information and the approval levels required for inclusion into At the top of the pyramid is DoD-wide mandatory direction (e.g., the Deskbook. 5000 series, the Federal Acquisition Regulation) and discretionary information (e.g., discretionary practices applicable throughout DoD.) DoD-wide information, to include discretionary practices and sample formats and examples, is approved by the Defense Acquisition Policy Working Group (DAPWG) which has a representative from each DoD Office, and the Components (Services & Agencies). Component-Wide information may be approved by the DAPWG member. Command-Wide information is approved by the Commander, Project Executive Officer (PEO) or Head of Contracting Agency (HCA). Software Tool Information is approved by the sponsor of the tool. Frontline Wisdom, and Practical Advice is approved in accordance with the process established by each Component to accommodate a sufficiency review. As mentioned earlier, Questions and Answers (specifically under the ∏Ask the Professor∏ Section of Deskbook) are approved/validated by a Point of Contact in a Resource Center (often DAU school faculty).

□iýÿ##d#□iA###íù#ö##Iÿ###########yÿ##

##################

###ÿÿ#####ÿ□#ÿ####Z#(#######Each service/agency should continually review existing documentation, handbooks, guides and manuals for integration into Deskbook. In some cases, organizations have opted to take the pertinent information from a manual or guide and integrate it into the information structure. This provides the user with access to the pertinent information while easily facilitating updates to the information without reprinting the document. Deskbook also is a great forum for you to share your ideas, lessons learned and to capture program experiences, especially in this time of change. Likewise, you will have access to the experiences of others across all Services and functional areas. The most important thing to remember is that this is YOUR product. The Deskbook Joint Program Office relies heavily on feedback in the development of Deskbook and continue to look for comments and suggestions. I encourage you to use Deskbook, familiarize yourself with the product and let the Deskbook JPO know what improvements can be made to make Deskbook even better for you!#
